## A Year of Change

From January through June Greenwich Free Library underwent a massive interior renovation; nearly every inch of our ground floor got a makeover!

Highlights include a bright and beautiful new Children's Room, a streamlined circulation area, new windows, new flooring, and new lighting.

During that time the physical space was not open to visitors, but that didn't stop us from serving patrons with book, DVD, and audio requests, along with WiFi in our parking lot, eBooks, and streaming video.

Patrons were welcomed back into the space in June.

Not long after, our longtime director announced her retirement, and in November we welcomed a new Library Director.
